EDUCATION

University of the Punjab   **August 2024 – Present**
Bachelors in Information Technology   *Lahore, Pakistan*

COURSEWORK / SKILLS

- Programming Fundamentals
- OOP Concept
- Web Design & Development
- Data Structures & Algorithms

SKILLS SUMMARY

Languages: C++, Javascript
Technologies/Frameworks: HTML, CSS, Tailwind CSS, Material-UI,Bootstrap, ReactJS,ViteJS,Redux, NodeJS, ExpressJS
Databases: MongoDB
Tools: VS Code, Postman, Git, Github, Docker
Soft Skills: Time Management, Event Management, Communication

---

Fiver - Mern-stack Developer   **July 2024 – Present**
Self-Employed   *Remote*

- Developed and delivered websites based on client requirements, ensuring high standards of design and functionality.
- Utilized technologies such as React, Node.js, MongoDB, and others to create dynamic, user-friendly websites.
- Maintained consistent communication with clients to ensure their needs were met and delivered on time.

PROJECTS

Prescripto ↗ | React, Tailwind CSS, React Redux, Express, MongoDB, JWT,Cloudinary

- Prescripto is a doctor-client appointment website designed to simplify scheduling and enhance doctor-patient interactions.
- Allows clients to book, reschedule, or cancel appointments dynamically based on doctor availability.
- Enables doctors to set availability, track upcoming appointments, and manage their schedules effectively.
- Built an admin dashboard to manage user accounts and properties, ensuring streamlined operations.

Zero2Hero ↗ | React, Tailwind CSS, React Redux,Gemini Ai,Node, Express,JWT,MongoDB,Cloudinary

- Waste Management System: A web-based platform designed to streamline waste management processes by facilitating efficient waste reporting and disposal.
- Integrates advanced AI (Gemini AI) to analyze uploaded waste images, automatically identifying waste type and estimating weight for accurate data entry.
- Features a leaderboard system to encourage user engagement by awarding points based on participation in waste reporting and management activities.
- Built with a responsive and intuitive design for easy waste reporting, data tracking, and real-time updates on the leaderboard.

HR Flow ↗ | React, Tailwind CSS, React Redux, Express, MongoDB, Cloudinary

- HR Flow is a web platform for managing employee attendance and profiles
- Admins can add, delete, and manage employee records and attendance.
- Employees can log in to view their attendance and personal details.

FIT CLUB ↗ | React,Tailwind CSS

- Fit Club is a simple, frontend-focused website designed to showcase gym services, fitness plans, and membership options.
- Built a responsive and visually appealing UI to provide a seamless experience across devices.
- Includes dedicated sections for gym services, workout plans, pricing, and testimonials.
